

FARMERS ORGANIZE.

Dark Tobacco Planters' Protective Association Takes in Hopkins County Farmers.

Private John Allen, of Tennessee, and Congressman Stanley Are the Speakers.

MR. ALLEN AT FIRST THOUGHT FARMERS COULD NOT ORGANIZE.

Declares They Have Succeeded Thoroughly and "Have Astonished the World."

There was some confusion in the public mind as to the principal speaker who was advertised to appear at the meeting of tobacco growers called to assemble at the court house in Madisonville on Monday. Because of the lack of a general announcement through all the newspapers of the county there was rather a small gathering and the meeting was held in the County Court room, which was overflowing with farmers principally. Some who attended the meeting thought they were to hear Private John Allen, of Mississippi. The speaker was Private John Allen, of Tennessee.

Before Mr. Allen was introduced Senator Edwards made a short talk in which he endorsed the movement for organization along the lines of protection for the farmer and announced that he would soon be a local organizer for the Society of Equity, for the county.

Mr. Allen then spoke at length of the course of his remarks and some telling points. He said he was here at the request of Felix G. Ewing, the wealthy Tennessee tobacco grower who is responsible for the organization of the Dark Tobacco District Association, which he said now had control of 90 percent of all the tobacco of the Clarksville district and was in position to sell all of it at an average of 10 cents or to arrange for sales on commission with a wealthy German capitalist, of New York City.

He told of the arduous work he had been doing on behalf of the Association during the past two weeks, saying that he had made two speeches daily and had not averaged four hours sleep in the twenty-four. He referred to his military record, saying he had served four years as a private in the Confederate army. He said he was in this present fight to win; that his services were free; that he had refused to accept pay for the work he was doing in this organization. He said he had always believed that a soldier who had to be paid to fight would run away when the shooting began. He said: "If you think I'm going to make you a political speech you are mistaken;" and insisted there was no room for politics in this movement.

Referring again to his record as a Confederate soldier, he said: "I have been a Democrat all of my life, but I haven't a darned bit of politics. When it comes to two parties with no difference in policy, I don't know who's right." This remark created considerable merriment among his hearers. Mr. Allen said he represented about 21,000 tobacco growers in the Dark Tobacco Association. This was based on an estimate of three men to each farm represented in the organization. Out of this 21,000 men he asserted there had been but seven desertions. All the rest had stood by their contracts with the Association and were reaping the benefit. He painted a prosperous future for the farmers

who would enter into and stand by this organization for business and said: "A contented rural population is the basis of a nation's strength." The speaker assumed the attitude of denunciation and declared there were not enough honest men in the Congress of the United States to give relief through legislation. He also asserted that the Tobacco Trust had controlled the Senate and there secured the pigeonholing of bills passed through the House of Representatives by Congressman Stanley, Congressman Gaines of Tennessee, and others. He spoke favorably of the American Society of Equity, but thought their plan was not as practical as that of the Dark Tobacco Association.

Mr. Allen admitted that it was an herculean task to build the farmers into a business organization and that doubts as to success of the movement had been entertained very generally. He said: "I myself thought it a hopeless undertaking to organize the farmers, but we have astonished the world." He said they had put their tobacco in the hands of their executive committee and that the committee now had a man who would take "every pound at the price the committee put on it." The prices, he said, would average 10 cents. He said they were sampling and prizing honestly and declared: "I never saw an honest hoghead of tobacco packed until this movement started."

The basis of acreage for the reduction of the crop in the Clarksville district Mr. Allen stated to be seven and a half acres of tobacco for the first fifty acres of land, and two and a half acres of tobacco for each additional fifty under cultivation. There has been in Hopkins county some confusion as to the proposed basis for the reduction of acreage and Mr. Allen explained that this was the basis adopted, but that while it would not result in reduction of acreage in Hopkins county it would, when applied to the entire dark tobacco district, have the effect of reducing the total crop sharply.

He closed by saying that Congressman A. O. Stanley would address the meeting and that after Mr. Stanley was through he would organize and give those who desired a chance to sign the contract and agreement with the Association. He said: "Get into the band wagon if you want to ride. Now's the time. But if you won't ride, then you can walk."

Mr. Stanley paid a tribute to Mr. Allen in beginning his speech and spoke well of both the Dark Tobacco Association and the Society of Equity. He said that all semblance of politics must be kept out of this movement, saying, "You can make no graver mistake than to allow politics to enter into this movement." He said: "You don't owe anything to anybody in Hopkins county or anywhere else in this matter." He said further: "You are not here to oppose any organization, any man, or any trust, if there be any, in Hopkins county," and went on to emphasize that the movement was solely and distinctly to effect an organization of farmers along business lines for their own protection.

As a spur to united action Mr. Stanley told of the burro, "the common little jackass" of the west, which he said would always stand together for defense against a common enemy and, if approached by any ravenous animal, they would all form a circle with their heads together and their heels outward. He said it was too often the case that if one hundred farmers went into anything, instead of heads together and kicking the common enemy they got their heels together and kicked each other. He spoke well of the American Society of Equity as well as of the Dark Tobacco District Association. Explaining the difference in some respects he said the Society was taking farmers everywhere; that the Association was confined to the dark tobacco interest, that it is a corporation to get tobacco to sell, that it costs the farmer nothing, there are no salaries, all goes to the farmer.

Mr. Stanley said two things must be done. "You must curtail the crop. You must control the price." He spoke of the Standard Oil, the Pottery and other trusts and told of their methods of controlling output and advancing prices. He emphasized the necessity of reduction of the crop and declared amid laughter that "if he owned a farm and couldn't raise any other crop than tobacco on it, that he'd just get out there and raise hell." He followed this with a forcible argument in favor of reduced acreage and added as a climax this declaration: "If the farmer could organize he'd starve the world into submission." He said the farmer could organize if they would and insisted that they should join one or both of the organizations.

Mr. Allen then took the floor again. He said the farmer could not raise tobacco for less than 6 cents a pound; that a hand could not produce more than 3,000 pounds which at 6 cents amounted to \$180, just what he paid the hand. But somebody had said this same hand had raised corn and hogs, to which he retorted "Yes, but the mule eat the corn and the nigger eat the hogs." He had some hot shot for "that hooked nose 'dago' Fargo," the Italian who has heretofore been supplying his government with tobacco under regie contracts, but said he could not get any of their tobacco this year without paying for it. He said "In Graves and Fulton counties they are trying to buy the crop in the plant beds. Keckon they'll try to buy the seed next."

The meeting closed with the signing of agreement by a number of farmers who stayed through the speechmaking, and a distribution of copies of the constitution of the "Dark Tobacco Planters' Protective Association," which is the official designation of the organization Mr. Allen represents.

GOOD WORK DONE

In Regard to Tracing Men Implicated in Longstaff Robbery—City Marshal Barnett Has Line on Guilty Parties.

There has been a great deal of good detective work done in the Longstaff robbery that the public knows nothing about. The work is known to have been done by Earlington talent and if he thought best City Marshal Barnett could now make several arrests. The safe in which the money was kept was fished out of a well in Mr. Longstaff's yard, as was also the door. The hinges had been cut off with a cold chisel and they and two knobs were found in a stable on the place. The sledge hammer with which the safe was battered was also found and all of these articles are now to be seen at Mr. Barnett's stable. What first led to the finding of these was a large rug with several round holes punched in it. This rug had been kept on top of the trunk from which the safe was stolen. On an examination of the rug it was found that it had been wrapped around the safe to deaden the noise while it was being battered with the sledge hammer. City Marshal Barnett has a line on the principal and in all probability he will be brought to Earlington in a short time, then other arrests will follow in short order. Mr. Barnett and his able assistants have by no means been idle since this occurrence and with the slight debt they had to begin on have done some excellent work.

Are You One of Them?

There are some people who mock at religion, sneer at sacred things, doubt or pretend to doubt immortality and have no faith in any man's honesty. To all such marriage is a galling yoke and chastity a useless custom. If these same people were on the ascendant this earth would be worse than the open jaw of Hell. Commerce would die in a community of atheists. There would be no accumulation of wealth for great enterprises and noble purposes. No charity, no philanthropists, nothing but the present gratification of perverted and sinful appetites. Without a firm belief in religion and the immortality of the soul life would be filled with Egyptian darkness and death full of terrors. It is hope of a life beyond the grave that makes us strive to live purer and better lives during our earthly career.

FEARFUL WRECK

Eight Men Killed in a Head End Collision Near McHenry, on I. C. Thursday Afternoon

CONDUCTOR MISREAD ORDEARS.

Following are the facts as received by THE BEE from its Princeton correspondent:

No. 152 fast freight and No. 193 local freight met on the main track 2 miles north of McHenry at 3:30 p. m., demolishing both engines and piling up 14 cars. The accident was caused by Conductor Tadlock and Engineer English on train 193 making a mistake of one hour in reading a time order on 152.

The following persons were killed:

Dan English, colored, brakeman, Louisville.

Dock Tierney, conductor, Louisville.

S. F. Bell, fireman, Louisville.

W. B. English, engineer, Cecilia.

Chas. St. Clair, fireman, Cecilia.

Cordie Smith, (col.) brakeman, Cecilia.

Matt Owens, colored, brakeman, Cecilia.

The injured are:

W. Yates, engineer, slightly injured.

G. Hollingsworth, flagman, Cecilia, injured in back and hips.

James Crenshaw, slightly injured.

Richard Craney, injured in shoulder and right arm.

The last three men were stock men. One car of stock was left standing near the engines and were badly scalded. Another car of hogs and cattle were turned over and some of them ran through the woods with the scalded fair slipping from them. Dock Tierney, the engineer on the northbound train, was the only one who saw the danger and jumped from his engine when the trains were about three car lengths apart. He was buried under both engines and he could be rescued. He died in a few minutes afterwards. Wreckers from Louisville and Paducah were ordered and the wreck was cleared in about nine hours.

ROY BLANKS

Accidentally Kills Isaiah Dunning at Mannington Friday Night.

Roy Blanks, of St. Charles, shot and accidentally killed Isaiah Dunning, of Mannington, Friday night. Dunning was in the saloon business at Mannington and Blanks had gone there to buy him out. Both men had been drinking and were considerably under the influence of liquor when the killing occurred.

It is said that they examining an old pistol which was thought to be unloaded. Blanks picked it up and pulled the trigger, there was a loud report and Dunning fell shot through the heart dying in a few minutes. He was about forty years of age; leaves a wife and several small children. It has only been a few weeks since Dunning shot Ward Kirby at Mannington and was released at the examining trial. Blanks is said to be deeply concerned at the sad affair. He and Dunning were good friends and had never been in any previous difficulty.

Although the coroner's jury returned a verdict in accordance with the above facts, a special jury was summoned at Madisonville Monday to inquire more closely into the facts in the case.

ABE MARTIN ROBBED

On the Public Highway Near Barnsey Saturday Night, by Joe Houlihan and Alphonse Morgan.

A holdup that was a complete surprise to every one took place on the outskirts of Barnsey, a little town two miles from this place, Saturday night. A be Martin, the stable boss for the St. Bernard Mining Company, was coming to Earlington on horseback to attend the Pennyrite Minstrel show. Just as he was leaving Barnsey he was set on and attacked by Joe Houlihan and Alphonse Morgan, two Earlington boys, who were in an express wagon going in the direction of Mortons Gap.

The boys who were said to be considerably under the influence of liquor ran their wagon so near the horse on which Martin was riding that he was forced in a ditch by the roadside. They then jumped from the express wagon and caught the horse Martin was riding by the bridle. Houlihan told him he had once been a cowboy and for him to get down from the horse and let him show him how to ride a horse. Martin talked to the boys for several minutes telling them to let go of his horse. Finally Houlihan said if you will give us half a dollar we will let you go. Then Morgan spoke up and said if he has a half dollar he has a dollar—make it a dollar. Martin gave the boys a dollar and started away. As he left one of the boys struck him with a stick. There are said to have been some eye witnesses to the holdup. Mr. Martin came to Earlington and swore out warrants for the two boys.

On the following Sunday night they were arrested by City Marshal Barnett and assistants Mitchell and Clark. Houlihan was found at the Catholic corner and Morgan on the corner in front of Mike Bohan's store. They were brought before Esquire Phillips and being unable to give a \$500 bond, were carried to Madisonville and placed in jail. Upon learning of the arrests Judge Gordon had a special grand jury summoned Monday to investigate this case and also the case of Roy Blanks for the accidental killing at Mannington last Friday. Houlihan and Morgan were indicted for highway robbery and will be tried at this term of court.

PENNYRITE MINSTRELS

Gave Good Show to Well Pleased Audience.—House Was Packed Downstairs.

The Pennyrite Minstrels of Madisonville, gave a show here Saturday night in the interest of the Daughters of Confederacy. They did exceedingly well and their jokes and songs were well received. Every song was encored and every joke applauded. The end men were great and kept the house in an uproar most of the time. On the whole the boys did wonderfully well considering the amount of experience they had and the short length of time they have been practicing. "Ink" Bailey did some good stunts in lightning art drawing and Cliff the juggler, did not do so bad. This troupe could go on the road and make good money and the people of Earlington trust they may again have the pleasure of seeing them before the footlights.

The Daughters both at Madisonville and Earlington feel very grateful to the Madisonville boys for their kindness in giving this performance. The amount taken in was \$105.50 and after the expenses are paid the remainder will be turned over to the Daughters to be used for the Soldiers' Home at Pewee Valley.

Signs That Will Enable You to Foretell Weather.

If it clears off in the night, look for rain the next day. If smoke from the chimney settles instead of raising, there is a storm at hand. When sound travels a long distance there is also a storm near. Never expect much storm in the old of the moon. The absence of dew and unusually heavy dew are alike fore runners of rain. Not much frost need be expected in the light of the moon.

Distant sound heard distinctly, forbodes no good weather. If the sun "draws up water" it will rain. The pitcher sweating and the teakettle boiling dry also indicate rain. Cobwebs thickly spread upon the grass are indication of fair weather.

Animal life seems, according to the popular notion, to have peculiar warnings regarding the weather changes. Often these are explainable by the natural causes. It is a fact recognized by all intelligent stockmen that cattle have an intimation of an approaching storm some hours before it is visible to the human eye. There is certain realness in which the cowboy has learned to interpret at once.

When you see a pig pasturing in the field build for itself a nest, you may look out for a storm. Chickens take extra pains in oiling their feathers just before a rain. Pea fowls send forth their shrill cries as a warning, and when the quail cries "more wet" from the meadow the farmer works wisely to get his hay under shelter.

Dairying in the South.

One of the most encouraging signs of the times throughout the entire south is the awakened interest manifested in the past few years in dairying. The southern states are ideally adapted to this branch of agriculture and a good many farmers have discovered that there is good money in the milk cow. This is especially true since the advent of the handpower cream separator, which adds from 25 to 40 per cent. to the price of each cow. It is a question which our readers should thoroughly investigate, not only on account of the ready money the milk cow brings in each week, but also, because of the good effect upon the farm in general, which follows the introduction of a dairy herd. Indeed, if the eyes did not yield a good profit directly, they would still be a paying investment on account of their value to the fertility of the land.—Dixie Farmer.

Facts for the Farmer.

Bermuda grass will furnish some green pickings for stock when all native grasses are dead from drought. An item in a report made by United States Consul General Stoneham at Havana states the value of the Cuban tobacco crop in 1903 as over \$20,000,000.

Foley's Honey and Tar for children, safe, sure. No opiates.

From a Shepherd's Notebook.
In fattening sheep especially punctuality in feeding should be strictly observed.

Feeding in sheep husbandry is like any other problem in live stock. However good the breed, without good care and feeding they must necessarily degenerate.

Sheep increase so rapidly and mature so early on a farm and their flesh is so wholesome for food that every farm should have its flock. In mixed farming there is enough going to waste on every farm to almost maintain a flock of sheep, which would be lost without them. Sheep, independent of wool, are worth more than their cost in what they do for the farm and in the meat they furnish.—American Cultivator.

HEALTH is the Most Important

The manufacturers of Royal Baking Powder have had 40 years of scientific experience.

Every method of bread-and-cake raising has been exhaustively studied in this country and abroad.

The result is a perfect product in Royal Baking Powder. There is no substitute for it. The purity and efficiency of Royal Baking Powder have been commended by the highest authorities of the world.

These facts mean two important things to all housekeepers:

First: that Royal Baking Powder is healthful and makes wholesome food.

Second: that Royal Baking Powder makes food good to taste.

ROYAL BAKING POWDER

ABSOLUTELY PURE

A college professor has just been held up by two dashing girls "highwaymen." It was a novel experience, no doubt, but how much more satisfactory if he could have held up at least one of the dainty bandits!

Secretary Taft has approved a recommendation made by Gen. Chaffee for a new bayonet, which is six inches longer than the old weapon. With the new bayonet it will be possible to stick an enemy "six inches sooner than heretofore."

DAD SAYS

BLUE G. HAND.

Once in a while my daddy says That I must realize. Study and work don't disagree With them that win the prize. But I'll tell you on the quiet It strikes me as a rule There's not enough of playtime And a heap too much of school.

As simply awful in the Spring To have to study books, When you want to go fishing And try your new fish hooks. Or to the tempting swim hole So deep and nice and cool. No, there ain't enough of playtime And a heap too much of school.

But dad says I'll get used to it Get used to feeling so. He says to tell the honest truth He often wants to go. A fishing in the summer time And loaf round where its cool. He said it beats a circus And plain duty's worse than school.

So I guess I'll have to stand it And try to be cheerful. What's good enough for my old dad Is good enough for me. Still I can't keep from thinking It's a mighty sorry rule, To have so little playtime And have so much of school.

A Woman's Ready Wit.

Senator Depue, at a dinner in Washington, was praising the wit of women.

"Against this wit," he said, "we men are powerless. Even when all the right and logic of an argument are on our side, woman, with her wit, will, nine times out of ten, put us to shame."

"Time a man once found that his wife had bought a few pulps of false hair. This displeased him. He hid in the hall one day and just as the lady was fixing the false pulps upon her brow he darted in upon her. 'Why do you put hair of another woman on your head?'"

"'Why,' she answered, 'do you put the skin of another calf on your feet?'"

FOOLISH PLAN

"It's a lot to eat—I will come in dinner hour."

"Constitution is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, constipation, uric acid, neuritis in various parts of the system, catarrhal inflammation of the intestinal canal, and a host of other ailments that rob life of its pleasure if they do not finally rob you of life itself."

"It is a lesson in the kitchen is a common expression of people who look miserable and are miserable—yet who persist in eating nature take its course."

"What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills."

"August Flower gives new life to the system and restores healthy action."

A Distinction and a Difference.

"Mark Twain" was talking about his boyhood in Hannibal, Mo.

"I have worked in those days," he said. "One morning, the boys and I went into the garden, and pointed to a bed of flowers that had a considerable number of weeds in it."

"I want you," said my father, "to weed out this flower bed."

"I examined the task ahead of me, and the more I looked at it the bigger it seemed to grow. Certainly I had never seen so many weeds in my life."

"Wouldn't it be a simpler operation," I said to my father, "to flower out the weed bed?"

Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years," says W. H. Howard, of Hannibal, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with."

No Objection on Her Part.

The customer was on the point of making a purchase in the dry goods department.

"I think this is about the pattern I want," she said. "Will it wash?"

"Yes, was said," replied the salesman, young man behind the counter. "It will not exactly wash, but it will bear washing without fading. I presume that is what you mean. Shall I wrap it up?"

"Yes, sir, you may wrap it up and put it back on the shelf if you like. I have decided not to take it."

Then, with her nose in the air, she went to the store across the street, where the salesman was not quite so finicky in the matter of language.

Strictly Genuine. Most of the patent medicine testimonials are probably genuine. The following notice appeared in the "Scott's Emulsion" advertisement:

"A well-known engineer, running on the Missouri Pacific between Wichita and St. Louis, lately appeared in a big one, with a picture, and when he was in this office today, we asked him to tell us about it."

"I have a terrible pain in my stomach, and thought he had cancer. My doctor recommended Scott's Emulsion and I took it."

"I told you that I was cured. I recommended it to others, who were also cured. I have used it on my stomach and it has cured me. Just as sure as the sun shines your stomach can be brought back to its originally pure condition and life sweetened by this healing and truly the greatest dietetic known."

From a schoolboy's game at its inception baseball has developed into a national sport that costs the promoters of organized leagues \$4,000,000 a season and attracts an audience of the residents of cities with an aggregate population of 27,000,000.

As every city, town, village and hamlet in America has its ball team, it can readily be seen that the total amount expended each season in the maintenance of the game in this country and the number of people who patronize it must be stupendous.

A Pleasant Trip to Rock Bridge. Sunday morning 6:15 o'clock a jolly crowd of 12, consisting of Misses Katie and Mary Hale, Zada Burden, Ida Amy, Eva and Willie Brown; Messrs. Rummy Harris, N. B. Wilson, Ed. Banks, Jno. Taylor, Allen Moore and J. L. Lack. A teamster, left Earlington for Rock Bridge, Christian county, arriving at Rock Bridge church.

After attending Sunday school services and listening to a good sermon by the minister of the M. E. Church, South, the jolly crowd repaired to the Rock Bridge, where they enjoyed the beautiful dinner, which was packed by F. B. Arnold's restaurant at Earlington. After enjoying the most delicious turkey, Mr. N. B. Wilson with his camera took their pictures in many different positions.

At the hour of 3:30 o'clock the jolly crowd started for home, making one stop in the river bottom to get the picture of the wagon and the 4 donkeys, arriving at Earlington at 7:30. All reported a good time and think they will go again soon.

Exposure. To cold draughts of air, to keen and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the throat and chest, or public speaking and singing bring on coughs and colds. Ballard's Horehound Syrup is the best cure.

Mrs. A. Barr, Houston, Texas, writes, April 15, 1902: "I have used Ballard's Horehound Syrup cured me of a very bad cough. It is very pleasant to take. Price, 25c. Sold by St. Bernard Drug Store."

In Great Britain there are 22,300 miles of track, and in the United States 2,913 miles. But in 1903 the British railroad transported nearly twice as many passengers as did the American railroads. In Great Britain there were 235 collisions of passenger trains, while in the United States the number was 10,445. In Great Britain only one passenger out of every 47,763,280 was killed. In the United States the proportion was one to every 3,943,073.

Herbicide. Will overcome indigestion and dyspepsia, regulate the bowels, cure liver and kidney complaints. It is the best blood purifier and invigorator in the world. It is a vegetable, perfectly harmless, and should be used by a sufferer from indigestion, or who will use it if you are well. R. N. Andrews, Editor and Manager, Rockledge News, Cocoa, Fla., writes: "I have used your Herbicide in my family, and find it a most excellent medicine. Its effects are wonderful. I have been benefited. I recommend it unhesitatingly. Price, 50c. Sold by St. Bernard Drug Store."

CASTORIA. The Kidney and Bladder Remedy. Sold by St. Bernard Drug Store.

Warning. You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise would be circulating in the blood and breaking down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only a temporary relief. It positively cures all forms of kidney and bladder trouble. Sold by Jno. X. Taylor.

A Word for the Women. "A New York divorce trial disclosed the fact that the husband had been in the habit of doing the family washing," says the Atlanta Constitution. Yes, and if more husbands in Hopkins county did the family washing or its equivalent in other work about the home instead of hanging round the saloons drinking beer and whiskey, talking maudlin politics and routing for the fellow that supplies them with "booze" there would probably be fewer divorces in the county. Over 100,000 married men are ruined health, fewer convicts and fewer worthless drunken husbands. The women are not always to blame. It does make a man any less manly because he assists in performing the household duties.

Advice From a Woman to Her Sister.

Some women, who have evidently been up against it in the matrimonial venture get off the following:

"Don't marry a man to reform him. It can't be done unless he is under 22."

The woman who permits her heart to rule her head makes a sad mistake.

If a girl loves a man no matter how dissipated or selfish he may be, she plunges into matrimony with her eyes closed.

No woman should ever depend entirely on a married woman for happiness. It is folly and leads always to heartache.

The man who drinks to excess, for it is a habit that leads to wretchedness.

And also the man who is selfish, the man who considers always his own interests before those of his wife.

All men are fickle, and it depends on the wife's power to hold them.

Beware of a man with an ungovernable temper; and almost all men are ended with a quality.

Shun the man who drinks to excess, for it is a habit that leads to wretchedness.

DAUGHTERS OF CONFEDERACY

Will Give a Picnic to the Old Veterans and Sons of Veterans at Lakeside Park on June 3.

On June 3 the Daughters of R. E. Lee Camp No. 622, composed of Earlington and Madisonville ladies, will give a picnic at Lakeside Park to the Old Veterans and Sons of Veterans. On this occasion Major F. B. Harris, of Mortons Gap, will present to the F. B. Harris Camp of the Sons of Veterans a beautiful banner, the handiwork of Misses Mollie and Maggie Whalen, of this city. Everett Jennings, of Madisonville, will make the presentation speech and W. C. McLeod will respond. The Daughters will confer the Cross of Honor on several of the Old Veterans and appropriate speeches will be made on this occasion.

Court Notes.

In the case of Henry Williams of Nebo, for flourishing a weapon, Williams was found guilty and his fine was fixed at \$50.00 and costs.

Esquire Jesse Phillips of this place, was admitted as a member of the Hopkins county bar in Circuit Court Monday.

In the Jeff Morgan case the court overruled a motion for a new trial. This case will be carried to the Court of Appeals as soon as transcript is ready.

NEBO NOTES.

A fine rain fell here Monday. Our farmers complain that we have had too much rain. A great deal of bottom land has not been planted and a great deal that has been planted again.

The tobacco crop is being planted. Some are done planting while others are nearly so. By the 1st of June the larger part of the planters will have finished. From what we can ascertain a much larger crop will be planted this year than last.

Bro. G. L. Woodruff filled his regular appointment at Rose Creek last Sunday. A large crowd was in attendance.

J. S. Durham and son attended church at Rose Creek Sunday.

Miss Erma Hill went to Madisonville Monday.

Dr. C. R. Ferguson left Saturday for Arkansas on a hunting expedition, but what he is hunting we are unable to say. He will be absent several days.

News was received here Monday morning of the death of Henry Brooks. He was about ten years of age and had been sick with diphtheria for a long time. He was a son of Rufus and Fannie Brooks. He was buried at the Union cemetery Monday afternoon.

Dick Averitt and Bob Ford, who have been sawmilling in Mississippi for the last 6 months, came back last week. They say that the hot weather run them out. They report mosquitoes a size smaller than peckerwoods, and gnats by the bush.

Sam Whaler began molding brick last week but had to stop for the want of hands. He resumed work Monday but was stopped by the rain.

There was no preaching at any of the churches Sunday, which gave the young men an opportunity to take their girls elsewhere.

Yandel Tilford has completed his new residence and moved home. He gave an ice cream supper Saturday night.

Mrs. A. M. Barnett, who has been visiting her parents for the last four months, came home last week.

Mr. John H. Langley, who moved to Madisonville about a year ago, has moved back to Nebo. He says that there is no place like Nebo.

Mr. Somers, who has been living in Nebo for six months, has moved to the country.

James Morrow has rented J. A. Hoffman's house and lot and gone to keeping house.

Birk & Roberts have begun shipping their last year's purchase of tobacco. Owing to the condition of the market they have been hiding their purchases.

We are informed that a firm from Indiana will begin mining a shaft for coal about one mile East of here, having taken options on 1,500 acres of land.

Considerable interest was exhibited in regard to the erection of a flour mill at this place, but seems to have died out as we hear no more of it.

LOCOMOTIVE BLASTS

The first car of strawberries from the Florence, Ala., section passed through here last week en route North. The L. & N. expects to handle about thirty cars from that field this month. This the first year that the strawberry growers of that section have shipped to Northern markets.

Mr. Church, engineer on the C. & N. and Mr. Jackson, fireman, had a fight at the depot at Gallatin, Tenn., Saturday afternoon in which a knife and rock were brought into use. From what we understand the trouble came up some way about switching, and Jackson drew his knife and Church hit him on the head with a rock, slightly fracturing the skull and an operation had to be performed. He is improving very nicely considering the injury he received.

Dan Cuyt, the leading car inspector at Evansville, is thinking of taking a trip to Pittsburgh, Pa., for his health, which has been failing for sometime.

Eddie Ressler and Walter Newman, apprentice boys of the Howell shops, will leave Saturday for Decatur, Ala., for a few days' vacation.

"Oh, me! Oh! oh! oh!" wailed one of the victims in the railroad wreck.

"What on earth are you making such a noise about?"

"I should think I had good cause, with my arm broken."

"Tut, tut, man; and look at all of these people, killed outright, who are saying a word."

Engineer J. W. Logan came near meeting with a serious accident on the Shawneetown Branch on the 10th. He was leaning out of cab window while doing some switching at Equality, and was struck on the head by the corner of a building near the track, disabling him for ten days or more.

Engineer Lawrence McMickle and fireman George Troop have gone to Knoxville, Tenn., with the pile driver to do some special work.

Dan Cuyt, inspector, went to Louisville yesterday (Wed.) on business for the company.

"What do you take out an accident policy for? You never travel?"

"But my next door neighbor has just bought an automobile."

T. J. Hines, who had a finger broke while at work recently, will probably leave in a day or so for Texarkana, Texas.

Dave Fortune, who was not able to hold out as a fireman, re-entered the service the other day to work as painter on the Henderson Bridge—but Dave could not stand it.

The wrecking crew were clearing away the debris of a collision caused by the yard engine colliding with the caboose of a local freight, when they discovered the body of Patrick Ryan, the old yard watchman, who was killed in the wreck. Michael Dugan, the boss of the wreckers, being a friend of the Ryans, sent one of his men ahead to break the news gently to the wife of Ryan, who lived near by. When the man reached the Ryan home he found Mrs. Ryan hanging up her wash in the front yard. Stepping up to her, doffing his cap, he said:

"Are yez the Widder Ryan?"

Mrs. Ryan looked up and replied indignantly: "Indade I am not. I am Mrs. Patrick Ryan. I'll have yer understand."

"You're a liar," responded the

man. "They're bringing his corpse around the corner now."

To help the Memphis Line out the Howell shops will overhaul their engine 715.

Steve Riederman, firing switch engine in the yard at Howell, formerly Mr. Walsh's office boy, left Monday, in company with his wife, for Salt Lake City, Utah, where they will spend a month with relatives.

Mr. and Mrs. J. Averitt of Chicago, were the guests of J. P. Carter of Howell, Sunday. Mr. Averitt is rate clerk for the Rock Island.

Solomon Mitchell, formerly a car repairer at Howell, now residing at Nashville, Tenn., is visiting his son, William, foreman of his car department.

H. A. Dare and wife are visiting friends at Mt. Vernon, Ill., which was their home prior to Mr. Dare going out on the road as a fireman.

Orley Ingram, porter on train 52, had his fingers mashed pretty bad Saturday by a trunk being left to fall on him at Mt. Vernon, Ill.

The Lewis & Clark Exposition at Portland, Ore., will open June 1st. The railroads have agreed upon one fare for the round trip from all eastern points to Portland, during the Exposition. This is the cheapest first-class transportation ever offered from the east.

Car inspector W. H. Wright left today (Thursday) for Owensboro, where he will rest up a few days.

Nashville, Tenn., May 22.—Contracts for lowering grades and straightening curves on the Louisville & Nashville R. R., between Guthrie and Earlington, Ky., a distance of fifty-five miles, will be let at an early day. Several contractors have been requested to submit bids. Bids for improving the road between Madison and Goodlettsville, Tenn., will be let in about ten days. Five hundred men are now at work on that part of the road between Greenbrier, Tenn., and Guthrie, Ky. The object of these various improvements is to shorten the running time of the trains and also make it possible to more expeditiously handle the increasing freight tonnage between the South and the North and West.

Asst. Supt. Devney, of Evansville, was here Wednesday looking over the situation.

Acting Trainmaster Wise was in Evansville this week. He will be out with a circus the greater part of next week.

Supt. Jno. Logsdon is recovering slowly and hopes to be able to go to his old home at Horse Cave by the latter part of this week.

A washout occurred on the N. & D. Division of the L. & N. Tuesday and No. 1, the New Orleans limited, ran into a creek with the entire train. No one was killed, although several were slightly injured.

Dispatcher Jewell went to Evansville Wednesday on business.

Business on the Henderson division continues to be all that could be desired for the season. Two work trains are now working daily between Sadlers and Forts.

Wanted—A good correspondent for the railroad column from both Earlington and Guthrie.

Only a few men on the extra

list now.

Brakemen Witherspoon and Jackson have been sent to Henderson to switch in the yard a few days.

Another switch engine has been put on at Henderson on account of the yard at that place being blocked.

Conductor Cunningham, who has been looking for a situation on the A. K. & N. has returned home.

Mrs. C. E. Evans, mother-in-law of Operator Duffy, left for Forrest City Monday night on account of the death of her brother.

MARDI GRAS SHOW

Coming to Madisonville Monday, June 5. Will Continue One Week Under the Auspices of the

WOODMEN OF THE WORLD

The Nashville American of May 24th, has the following to say of this company's show:

Although Nashville has had many spectacles and shows, fair exhibitions, it has had but few attractions that compare in any way favorably with the exhibition being offered at the Haymarket Square this week by the Seamen & Milligan Mardi Gras and Circus Company. As a part of the Nashville May Festival this company began its exhibition Tuesday with fourteen of the newest, cleanest and most interesting shows that have ever been seen in Nashville.

The fourteen shows comprise nearly all the features that go to make up a modern and thoroughly up-to-date Mardi Gras, and as is not often the case, one show is the standard for the whole. But the novelties of the exhibition and the amusing things seen there are no less interesting than the fact that with even this great variety not one thing objectionable in a moral sense or anything unbecoming in the least can be found inside the grounds. Many words of praise were uttered by the hundreds that attended Tuesday night.

And there was perfect order everywhere, notwithstanding the fact that there were as many people there as the grounds would well accommodate. Early in the evening there was a little trouble in the adjoining lot near the merry-go-round, but this was soon settled and on the main grounds there was nothing but the best order throughout the evening.

Beginning with the "Original London Ghost Show," and completing the circuit of the square, there are attractions as thick as they can comfortably operate. As the Retail Merchants' committee reported before the company signed contracts to come here, it was "clean and interesting."

The London Ghost Show is a marvel of its kind and the company carries a number of features not often seen outside the big cities of the East. Prof. Bruce, with his twenty-four difficult instruments, plays them all well, and his exhibition is followed by a ghost performance that is truly a marvel. Whether optical illusion or not, one sees things at that show that are worth seeing.

Across the grounds the visitor finds the wonderful Luna, where the wonders of legerdemain are performed. Luna named the articles held by her director while she was blindfolded and the director in the audience and never failed once on the exact time by any watch. The denouement of any coin and the dice thrown were easy for her and she knew just how many matches a box contained or whether a ribbon was pink or blue.

Following this her co-entertainer gave an exhibition with cards that was considered the most marvelous thing ever seen in Nashville. Luna's most interesting act, however, is flying in the air, and although she explained that it was all a trick, no one was able to see how it was performed.

The Electric Theater is another splendid show and one that will require some time to thoroughly examine. There are all kinds of shows, the stadium in view, easy riding in character, but they are all interesting and perfectly clean. The Crystal Maze, an improvement on that seen here during the Centennial, is another exhibition well worth the time and expense of the shows will be in Madisonville week of June 6th.

CASTLEBERRY.

Chapter of Deaths on the Border Line of Hopkins and Christian.

DECORATION DAY SERVICES ANNOUNCED.

The Grim Reaper has again been in our vicinity and claimed several victims. On the morning of the 15th inst. the 11 months old son of Mr. and Mrs. Elma Dunning, of Pool, died and was buried the next day at the Dunning grave yard. On the morning of the 16th the 6 years old son of Mr. Lincoln Knight, died and was buried the next day at the McKnight grave yard and on Wednesday morning, the 17th, at 8 o'clock, Mrs. Frank Pool, of the Consolation church neighborhood, died of consumption. Mrs. Pool was 44 years of age, was a most estimable lady, a loving wife and a kind and affectionate mother, loved and respected by all her neighbors and friends. She leaves a husband and 6 or 7 children to mourn her loss.

Mr. Clay Alexander, an aged citizen who lives with his sister, Mrs. Adaline Adams, is very low with dropsical trouble and is expected to live but a few days longer.

Mr. William Jackson, an aged citizen of Dawson Springs, has been quite ill for several days at the residence of his son-in-law, Esq. J. W. Orton, but is slowly recovering at present. Dr. Williams, of Crofton, is attending him.

The continued, or rather protracted wet weather, has greatly retarded farm work on bottom land.

Culturable tobacco is being set, plants plentiful and good seasons for setting.

There will be Memorial Services Sunday, May 28th, at the following time and places: Cranor's school house at 9:30 o'clock a. m., Castleberry church at 2 o'clock p. m., Campbell's graveyard at 4 p. m. The public, and especially the ladies, are most cordially invited to attend and take part in decorating the graves of our heroes with sweet spring flowers. Remember we decorate the graves of all, regardless of the flags they followed, conceding to them an honesty of opinion as doing right as they saw it. There will be several good speakers to take part in the exercises. It has become the custom, and we think a very commendable one, for all the surviving friends and relatives of those buried at our graveyards, to meet there on that day and decorate the graves of citizens and soldiers alike.

Another sad occurrence at Manington, Ky. Another killing added to the long list of men who have lost their lives there. On Wednesday night of last week Mr. Isaiah Dunning, saloonkeeper of that place, was accidentally shot and killed by Mr. Roy Blanks, of St. Charles, and was buried the next day at the Dunning graveyard 4 miles west of Crofton near Mr. Dunning's old home, where he spent his boyhood days. He leaves a wife and 4 children to mourn his loss.

HECLA NOTES.

Mrs. A. J. Wilson was called unexpectedly to Rock Bridge on Saturday evening to the bedside of her father, Mrs. Adella Penning, who was in a very critical condition.

Mr. Dock Griffen has recently purchased a very handsome photograph, of which his little boys are very proud.

Mr. and Mrs. Ben Brown left for the South on last Saturday. They have been visiting at the home of Mrs. Mary Hogan.

Mr. and Mrs. Melvin Gibbons were the guests of Mrs. Mollie Bascom for a few days last week.

Mr. Henry Foard is expected home in the course of a few days. He has resided in St. Louis for the past year and is now enroute for New Orleans.

The Hecla school will close on the 7th June.

W. J. Foley.

In this issue of "THE BEE" will be found the announcement of W. J. Foley, of Madisonville, for the office of Representative, subject to the action of the Republican party. Mr. Foley is a representative citizen of Hopkins county and has been in business in Madisonville for a number of years. If elected he will doubtless fill the office in a creditable manner.

No More Fishing.

On account of the bass and other fish nesting, there will be no more fishing in the Lake until July 1st, and notice is hereby given to the public to this effect. A violation of the above notice will be prosecuted.

MINING NOTES.

DENIAL MADE.

Reported Sale of Northern Coal & Coke Company's Plant Outrue--Preparatory for Development.

Ashland, Ky., May 20.—Senator J. N. Camden, of Parkersburg, W. Va., president of the Northern Coal and Coke Company, spent part of yesterday and today in the general offices of the company at this place, going over the company's affairs with its general manager.

The Senator talked very freely about the company's property and its holdings of 325,000 acres of coal land on the headwaters of the Big Sandy and Kentucky rivers, comprising the great coal fields of Northeastern Kentucky. When pressed for a confirmation or denial of the report lately published in the Cincinnati papers that his company, or its holdings, were owned or controlled by the Great Central railroad system, he stated that the rumor was entirely without foundation. He said that his company was anxious to have its property developed, and its coal and coke open to the markets, and would encourage any and all railroads to build into its territory. He seemed to be enthusiastic as to the great value of the company's coal fields and the superior quality of the coal and coke. It is thought that a line of railroad will be built from the South, in addition to the one from the North, which now seems assured.

Mt. Sterling, Ky., May 20.—Charleston, W. Va., capitalists have completed a deal whereby they secure 22,000 acres of land on the North Fork of the Kentucky river from J. H. Hambrick, of Ashland. The price is reported at \$9.25 per acre. The lands are in Lee and Breathitt counties and have underlying their surface at least 100 veins of cannel and bituminous coals, ranging in thickness from eight to thirty inches. A company will be organized and work to develop the lands will be begun in a short time. It is the purpose of the purchasers to build a railroad to get the coal to the Louisville & Eastern railroad and to open up several coal mines. The new owners get possession of the lands at once.

Richmond, Ky., May 20.—A special train bearing a number of prominent officials of the Louisville & Atlantic railroad passed through here today on a tour of inspection. It is the party's intention to examine the resources of the line in Lee county with a view to opening coal mines in the mountain country adjacent to the tracks of the Louisville and Atlantic.

Articles of incorporation have been filed in the county clerk's office at Madisonville by the Washington Coal & Coke Company. W. L. Gordon, Sr., Geo. W. Rash and M. K. Gordon, all of Madisonville, are named as incorporators of the new company. The new concern is capitalized at \$1000 divided into 200 shares. It is stated that all coal rights above No. 9 vein have been leased by this company from the Victoria Coal Co., and that a plant will be opened in the near future to work the No. 11 vein.

The United States Gas, Coal and Coke Company of Sturgis, Ky., has secured the mineral rights to several thousand acres of land lying near Sturgis.

Meers, Elvie Hankins and Floyd Deberry, of Nortonville, were here Friday on business.

The report sent out from Morgantown, Ky., several days ago, announcing that Thomas A. Nevins, the New York multi-millionaire, had purchased the Tradewater Coal & Coke Company's plant at Sturgis, Ky., and the Baker Coal Company's property, at Wheatcroft and 2,500 acres of coal lands lying in that section has been denied at the offices of Mr. Nevins in New York.

Lawson Miles, who had the misfortune to have his foot mangled several weeks ago, is able to be out again.
